

The Army of Caregivers

We are an army marching on a war

We are the caregivers you never heard of us before.

But we have banded together for our loved ones who are sick

We are fighting the enemy of the bureaucracy and won't quit.

This army is standing strong for the caregiver of the world

Who have labored and suffered out on the front.

Paperwork and poverty will not stop our fight.

We are an army that will fight to the end.

You will see us coming with our heads held high and strong.

We will fight this battle till we lay down and die.

We are the Army of Caregivers and God is on our side.

So look out we are the Caregivers of the world.

We are on the loose and the battle will be won.

We will turn the tables and get things done.
